14. Mr Phillip Taylor Executive Officer
15. Mr Allen Morris Yates Principal Information Officer

Facilitator

16. Ms Lynette Glendinning (Facilitator) PALM. Management

The following apologies were noted

1. Mr Mick O'Hara CDHA Mental Health and Special Programs Branch
2. Dr Brian Kable The Royal Australian College of General Practitioners

Dr White then introduced the facilitator, Ms Lynette Glendinning. Ms Glendinning was well known to the SPGPPS and had facilitated the First SPGPPS Strategy Day held on 18 February 2002 and the 16 August SPGPPS National Forum 2002, which were both held in Melbourne.

2. STRUCTURE OF THE DAY

Ms Glendinning then outlined the days proceedings and indicated that the purpose of the day was to examine the five Agreed Stakeholder Goals (ASG) arising from the SPGPPS National Forum 2002 and determine the role of the SPGPPS and its stakeholders in progressing these.

This will be done in light of SPGPPS Strategic Plan, which sets out the agreed key policy directions for the private sector.

Ms Glendinning then reminded those present that, in February 2002, the First SPGPPS Strategy Day had agreed that the SPGPPS is a *communication forum* that brings together diverse stakeholders to identify and agree issues in order to provide better mental health services in the private sector. The SPGPPS seeks to achieve this through a reform process, which involves:

1. undertaking multilateral discussions to better inform stakeholder policy processes;
2. looking at alternative funding arrangements;
3. informing and affecting practice within the sector; and
4. linking with the public sector.

This reform process requires the SPGPPS to undertake open and frank face-to-face discussions in which concerns can be raised and heard so that stakeholders can work together on agreed key issues and develop the process necessary to formulate solutions.

3. KEY QUESTIONS

Ms Glendinning then drew attention to the five Agreed Stakeholder Goals and their associated short term and long term actions, which had been circulated with the agenda and papers for the Strategy Day.

Those present were then asked to examine and analyse these based on the following strategic assumptions.

1. Move forward as a unified sector and identify where we can move forward together.
2. Link to wider initiatives where funding is available and get the key issues on the table.
3. Link with the whole sector including the full range of mental health providers.

The outcome was tabulated as follows.

The proposed strategy should be both feasible and cost effective. All stakeholder groups should be involved in the development of the strategy.</p>

4. GOVERNANCE AND REPRESENTATIONAL ISSUES

The meeting expressed concern over the lack of attendance at face-to-face meetings of the SPGPPS of the representatives from RACGP and the CDHAC Mental Health and Special Programs Branch. Following discussion it was resolved.

RESOLVED

1. *That the SPGPPS requests the Chair write to the Commonwealth Department of Health and Ageing, Mental Health and Special Programs Branch concerning its attendance at meetings of the SPGPPS.*
2. *That the SPGPPS requests that the Chair of the SPGPPS, Dr Yvonne White, the SPGPPS Executive Officer, Mr Phillip Taylor and RANZCP Executive Director, Mr Craig Patterson meet with the newly appointed RACGP President, Professor Michael Kidd, with a view to securing more consistent and effective RACGP contribution to the SPGPPS.*

6. SPGPPS NATIONAL FORUM 2003

There was discussion of the next SPGPPS National Forum and a range of suggestions were put forward as to how the 2003 Forum could be improved as follows.

- Build in more time for networking and promote the SPGPPS more strongly, in particular, the profile of the Executive Officer needs to be addressed.
- Explore the style of the conference with a range of speakers/electives and demonstrate the track record of achievement.
- Provide opportunities for specific subgroups, for example consumers and carers, to meet together, and facilitate a meeting place for particular groups.
- Bring diverse groups together but ensure task and timing provide sufficient opportunity to explore views.
- Explore stronger input by SPGPPS into TheMES and other conferences.
- Provide a catalyst for provocative debate.
- Look at most appropriate conference timing.

These suggestions were noted for consideration at the 30th Meeting of the SPGPPS.

6. CONCLUSION

There was consensus that the 2nd SPGPPS Strategy Day proved successful in arriving at practical actions geared toward progressing the Agreed Stakeholder Goals that arose from the SPGPPS National Forum 2002 over the next 12–18 months. The SPGPPS agreed to endeavour to maintain the focus of the SPGPPS on these issues.

7. CLOSE

The meeting closed at 4:30 pm and the SPGPPS thanked Ms Glendinning, by acclamation, for her invaluable assistance in facilitating the day.
